

**REPORT ON THE ACTIVITIES
OF
THE MADAGASCAR DEVELOPMENT FUND
2023**

17th of March 2024

Madagascar Development Fund

Background

The Madagascar Development Fund was created by experienced, former British Embassy employees to replace a similar Scheme (Small Grants Scheme) funded by the UK Department for International Development (DFID) and managed by the British Embassy in Antananarivo. Over a period of more than 10 years the Small Grants Scheme financed hundreds of valuable developmental and poverty-alleviation projects – until the Embassy closed and the Scheme ended in August 2005. Former British Ambassador, Brian Donaldson, is Patron and principal fund-raiser of the Madagascar Development Fund, which received formal approval from the Malagasy authorities on 2 July 2008.

MDF is a non-profit making, Non-Governmental Organisation which finances small developmental projects throughout Madagascar. It carries out these charitable activities with impartiality and without regard for race, religion or political affiliation. MDF is dependent for funds on companies in Britain, Madagascar and elsewhere, charitable organisations, foreign governments, and generous individuals.

Objectives

MDF objectives are :

- to improve health care and sanitation, and provide safe, clean water;
- to improve access to primary education by building, extending, and renovating state primary schools;
- to reduce poverty by means of revenue-generating projects;
- environmental protection projects involving local communities.

Overall Philosophy and Approach

All projects financed by MDF are initiated by poor communities themselves or local Associations working with them. MDF's motto is "Let's build a better future together". MDF attaches great importance to local community participation – to reduce costs, build local capacity and encourage "ownership". Local participation can include providing free labour and supplying locally available building materials such as sand, stones, gravel and even water where it is not readily available.

Donations made in the UK to the Madagascar Development Fund are processed by Liverpool Charity and Voluntary Services (LCVS) 151 Dale Street, Liverpool L2 2AH, a registered UK charity (N° 223485) and transferred by them to MDF's bank account in Antananarivo.

Standard rate tax payers can increase their donations to MDF by 25 pence in the pound by completing a Gift Aid Declaration form. This additional revenue will enable MDF to :

- to top up donations that fall short of project costs due to currency exchange rate fluctuations and increases in the cost of building materials;
- finance additional small projects such as repairing a leaking classroom roof;
- buy classroom furniture

The cost of running the MDF office in Antananarivo (rent, salaries, transport, utilities, etc) and evaluating monitoring and inaugurating projects is approximately £ 45 000 a year.

ACTIVITIES REPORT FOR 2023

Summary

The total amount of donations received to date (as at 11/4/2024) by the Madagascar Development Fund since its creation in 2008 amounts to £ 4,103,720 (i.e. Ariary 16 374 051 845).

Some MDF staff continue to work from home following the COVID lockdown measures taken by the Malagasy government, although face-to-face meetings are held as and when the need arises.

Once again a significant proportion of MDF's funding came from the Adsum Foundation of Belfast and its financial partners the Lynch family and Gilbert Ash.

Two importers/consumers of Malagasy vanilla in the United States, continued to support MDF's activities. Synergy Flavors and the Vanilla Corporation of America.

Despite the global economic slow down and energy and cost of living crises, MDF succeeded in finding sources of funding for 13 projects, including the construction of 18 new classrooms equipped with school benches and latrines in 5 public primary schools (EPP), a fully furnished pre-school classroom, 1 Basic Health Centre with furniture and medical equipment, solar power and clean water supply, and the installation of 4 safe, clean water installations.

Donations received in 2023 amounted to £ 294 289.97 (i.e. Ariary 1 575 835 339,09 (List of donors at Annex A) - a slight drop on the 2022 figure, possibly due to the continued fallout from the COVID pandemic.

To date, MDF has been able to finance 346 projects including 183 public primary schools, 116 safe, clean gravity-fed water installations and 20 Basic Health Centers

A special thank you goes to Katy Crofton who generously created MDF's website in 2008 and managed it on a voluntary basis until 2023. MDF owes much of its success to Katy and we hope she will stay in touch.

MDF's website has been modernised (www.maddevfund.com) and updated by Nicky Ramanantsoavina – to attract more supporters and increase the number of vulnerable communities living in extreme poverty that receive MDF's support.

Annual report

The Belfast-based Adsum Foundation, one of MDF's largest and most loyal donors, together with its financial partners, have built another 12 new classrooms in 3 public primary schools, all equipped with school furniture, latrines and urinals, educational books and manuals, school kits, educational toys and games, footballs and skipping ropes. Since 2011 they have built 220 Classrooms in 68 Primary schools

Synergy Flavors in the United States, a major importer/consumer of Malagasy vanilla, financed the construction of another 3 classroom primary school with latrines, urinals and classroom furniture at Andrapengy in the vanilla growing north east at Antalaha.

The Vanilla Corporation of America (VCA) financed the installation of a life-saving, safe, clean water system at Imerikapoza. The Sattin family, a long-standing supporter of MDF, financed the construction of another Basic Health Center at Ambatomitsangana in Itasy Region with solar power, a safe, clean water supply, medical equipment, furniture and supplies essential to its operation.

The Tory family generously agreed to build and furnish another three classroom primary school and safe water installation, this time at Miakotsorano.

Two more of MDF's long-standing supporters, Court Fields school in Wellington, Somerset, and the Friends of Hassocks Infant School in West Sussex, agreed to share the cost of building and furnishing a pre-school classroom at Antanimarina Primary School, and buy books and educational toys for the children.

Sister Béné, a nun who spent ten years in Italy training to be a doctor, decided in 2009 to return to Madagascar to help the poor. With the money she earns from her physiotherapy work she provides meals twice a week to 40 children (some of whom are orphans) and 30 of the most vulnerable adults in her area. The Street Foundation provided funding to buy medical equipment and materials and to furnish the Health Centre Sister Béné built. John Hunt also contributed to this project to buy furniture and pay for the electrical installation.

The Street Foundation and Kitchen Table Charities Trust continued to contribute to MDF's operating costs and to funding small development projects. To all of our supporters we send our heartfelt thanks.

Now that the health restrictions imposed by COVID-19 have been lifted, MDF looks forward to more of our supporters taking up Nicole and Brian's invitation to participate in the inauguration of their projects. Supporters will be met on arrival, accommodated in their house in the hills on the outskirts of Antananarivo, and after the project inauguration will accompany them on a three day (two nights) visit to the Andasibe National Park (www.hotelvakona.co) for close encounters with lemurs and other endangered species. If our visitors can spare the time a trip to the beautiful east coast is also a possibility. This invitation gives MDF an opportunity to show its deep appreciation for all who have contributed so

generously to improving the lives and future prospects of children and adults living in extreme poverty in some of the most deprived and isolated areas of Madagascar.

Accounting

At the end of December 2023, the amounts held in MDF's "Projects" and "Administration" accounts were respectively £9,898.43 (i.e. Ariary 49 492 127,94) and £25,477.13 (i.e. Ariary 127 385 652,41). A complete detail of financial transactions during the year 2023 is available in Annex C (website).

The total amount of donations received from July 2008 to date amounts to £4,103,720 (i.e. Ariary 16 374 051 845). A complete list of MDF's financial partners, with their respective contributions, is presented in Annex A.

The annual audit report with related recommendations along with all other supporting documents regarding donations and expenditures can be viewed at any time at the MDF office in Ankerana Antananarivo.

We, the signatories below, confirm that all MDF procedures have been carefully followed and that detailed and periodic checks of bank statements have revealed no irregularities. Effective and transparent financial controls are carried out regularly.

Project work

As of the date of this report, 346 projects have been funded throughout Madagascar. A complete list is given in Annex B – showing that in addition to supplying classroom furniture, story and exercise books and pens etc and building latrines at many primary school schools, MDF supporters have also built, expanded, or renovated 183 public primary schools, installed 116 new drinking water supply systems, built 2 public washhouses and 20 basic health centers (CSB II)

Inaugurations

During the year 2023, 10 inauguration ceremonies were carried out. These are the state primary school in Ambohimandroso Miarinarivo, EPP Fiakarantsoa Manazary, EPP Fandrakotra, a clean water supply system in Soafierenana, a clean water supply system in Vohitrarivo, a public washing place in Andohasaha Ambohitraivo, EPP and clean water supply in Miankotsorano, a clean water supply system in Amboara, a basic health center in Maharidaza, a safe, clean water supply system in Miorikampoza.

A complete list of inaugurations carried out to date is available in Annex D (website).

Media Coverage

The Malagasy written press and local media have contributed a great deal to making MDF's activities known both in Madagascar and to our financial supporters by regularly participating in the inaugurations of our projects, and broadcasting their reports in the Malagasy and French editions of the main radio and television news bulletins.

We particularly address our sincere thanks and deep gratitude to the MADAGASCAR TELEVISION Group (Ma-TV Group) and the State Broadcaster TELEVISION MALAGASY (TVM) for their loyal contributions and valuable collaboration since the existence of MDF.

Copies of press articles on MDF projects inaugurated in 2023 can be viewed in Annex E (website).

Future projects

Each day MDF receives more deserving project proposals than we can ever hope to support from the limited funds available to us. We are constantly seeking to widen our network of contacts and partnerships, but at the date of this report, a sum of £876 892 would be required, but is not yet available, to cover the financing of 37 deserving projects which have been visited, evaluated and approved by MDF in principle.

A copy of the list of projects awaiting funding is available in Annex F (website).

MEDIA COVERAGE

Education nationale

Deux bâtiments neufs pour l'EPP Amboangivy Miarinarivo

L'Ong Madagascar Development Fund (MDF) et ses partenaires Adsum Foundation et une famille britannique Lynch ont doté l'école primaire publique EPP d'Ambohimandroso-Amboangivy, du district de Miarinarivo, région Itasy, de deux nouveaux bâtiments de 6 salles de classe en tout, meublées, et de latrines à 6

compartiments, ainsi que de kits scolaires, de manuels pédagogiques et des jouets éducatifs pour le préscolaire. Cette EPP n'avait jamais eu d'édifice scolaire et les élèves travaillaient depuis toujours dans un modeste local, emprunté aux services des travaux publics de la localité. Les quelque 200 élèves qui fréquentent

actuellement l'école pourront désormais évoluer dans un environnement de qualité, répondant aux normes de l'éducation nationale.

Ce programme de développement et d'expansion de l'éducation, particulièrement en milieu rural est réalisé par MDF et ses partenaires dans le cadre du partenariat public-privé (3P).

L'infrastructure a été inaugurée le 13 janvier 2023 par le ministre de la Culture et de la Communication Lalatiana Andriantongarivo. Rakotondratzafy, assistée des autorités locales conduites par le député de Miarinarivo, Fetra Rakotondrasoa et du préfet de Miarinarivo ainsi que de l'assistante du Directeur général de MDF.

Amboangivy Miarinarivo State Primary School inauguration
Press article published in the Malaza newspaper on January 18th, 2023

Fanabeazana tsara kalitao

Trano sekoly miefitra 6 ho an'ny EPP Amboangivy Miarinarivo

Tsy diso anjara amin'ny fanabeazana tsara kalitao, ireo ankizy mpianatry ny sekoly fanabeazana fototra Amboangivy ao Miarinarivo Itasy. Trano sekoly vaovao miisa roa, ahitana efitra mitontaly 6, ka préscolaire ny iray, efa misy latabatra sy dabilio, miampy fitaovana sy kojakoja: pianarana isan-karazany ho an'ny kilasy rehetra ary koa fitaovana sy kilalao ho an'ny préscolaire, sy trano fidiovana, no natolotry ny fikambanana Tsy miankina Madagascar Development Fund (MDF) sy ny mpiara-miombona antoka aminy, Adsum Foundation sy fianakavianina Lynch. Tsy mbola nanana trano sekoly mihitsy moa ity EPP ity hatramin'izay, fa trano garazy an'ny Travaux publics ao an-toerana no nampindramina nianan'ny mpianatra nandritra izay taona maro lasa izay. Naneho fankasitrahana izao fanomezana vokatry ny fiarahamiasa 3P izao avokoa, araka izany, ireo mpahazo tombonsoa teny an-toerana. Tonga leny an-toerana nitokana ny foto-drafitrasa ny 13 Janoary teo ny ministry ny Sersera sy Kolosaina Andriantongarivo Rakotondratzafy Lalatiana, notronin'ny solombavambahoakan'i Miarinarivo, Fetra Rakotondrasoa sy ireo manampahafana sivily sy miaramila tao an-toerana, ary ny solote-nan'ny Tale Jeneralin'ny MDF.

Ambohimandroso- Amboangivy

Six nouvelles salles de classe pour l'EPP

L'éducation joue un rôle important dans le développement du pays. Le droit des enfants d'accéder à une éducation de qualité s'avère ainsi indispensable. Convaincues, la fondation Adsum et sa partenaire, la famille Lynch, ont apporté leur contribution pour changer les choses dans plusieurs localités de Madagascar. Cette fois-ci, ces donateurs ont alloué la somme de 239,443,690 ariary pour la construction d'un nouveau bâtiment de 6 salles de classe équipées de mobiliers scolaires au profit du village d'Ambohimandroso-Amboangivy Miarinarivo. Une partie de ces fonds a été allouée à la construction de deux blocs de latrines respectivement à 3 compartiments. D'un autre côté, les élèves de l'établissement ont reçu des kits scolaires et des manuels pédagogiques ainsi que de jouets éducatifs pour ceux du préscolaire, le tout évalué à 9 746 600 ariary. Les nouvelles infrastructures sont opérationnelles depuis le 11 janvier dernier, jour de leur inauguration en présence du ministre de la Communication et de la Culture ainsi que des autorités de la Région d'Itasy et des responsables de l'ONG Madagascar development fund, représentant des donateurs.

Rappelons qu'il y a quelques années auparavant, plusieurs centaines d'enfants de la Commune de Miarinarivo étaient enseignés dans des conditions scolaires des plus lamentables. Un garage, prêté par les Travaux publics, faisait office de salles de classe à défaut d'infrastructure adéquate. Le local en question était loin de répondre aux normes requises car il n'y avait même pas de murs de séparation, les salles se trouvaient inondées dès qu'il pleuvait et un froid glacial persistait en période hivernale. Les élèves et enseignants étaient exposés à un danger potentiel à cause des murs fissurés. Mais cette époque est désormais révolue!

Trano sekoly miefitra 3 an'ny EPP Fiakarantsoa Manazary

Tsy diso anjara amin'ny fanabeazana tsara kalitao, ireo ankizy mahery ny 500 mpianatry ny Sekoly Fanabeazana Fototra Fiakarantsoa Manazary, ao Miarinarivo Itasy.

Trano sekoly iray vaovao, ahitana efitra 3, ka préscolaire ny iray, efa misy latabatra sy dabilio, miampy fitaovana sy kojakojam-pianarana isan-karazany ho an'ny kilasy rehetra ary koa fitaovana sy kilalao ho an'ny préscolaire, ary trano fidiovana miefitra 3, no natolotry ny fikambanana tsy miankina Madagascar Development Fund (MDF) ho an'ny sekoly fanabeazana fototra Fiakarantsoa Manazary, ao

Miarinarivo Itasy. Ny mpiara-miombona antoka amin'ny MDF, Adsum Foundation sy fianakaviana Lynch, no namatsy vola ny fotodrafitrasa sy nividianana ireo kojakojam-pianarana ireo. Efa tonta tokoa ny trano sekoly nisy teo aloha, izay niorina tamin'ny taona 1930

ka tsy mahazaka intsony ny isan'ny mpianatra izay mitombo isa isantaona. Nanararaotra io fotoana io koa ny minisitry ny Serasera sy ny Kolotsaina Ramatoa Andriantongarivo Rakotondrazafy Lalatiana, niaraka amin'ny solombavambahoaka tao Miarinarivo, nanolorana

daban-doko sy kojakoja samihafa hanarenana indray ny trano sekoly teo aloha, izay efa simba be. Naneho fanakositrahana izao fanomezana vokatry ny fiarahamiasa 3P izao avokoa, araka izany, ireo mpahazo tombotsoa teny an-toerana.

Tonga teny an-toerana nitokana ny fotodrafitrasa ny 12 Janoary teo ny ministry ny Serasera sy Kolotsaina Andriantongarivo Rakotondrazafy Lalatiana, notronin'ny solombavambahoakan'i Miarinarivo sy ny Prêfet sy ireo manampahefana sivily sy miaramila tao an-toerana, ary ny solontenan'ny Tale jeneralin'ny MDF. **HR**

Fiakarantsoa Manazary State Primary School inauguration
Press article published in the 'Zay zany newspaper on January 19th, 2023

Un nouveau bâtiment pour l'EPP Fiakarantsoa Manazary

L'école primaire publique EPP de Fiakarantsoa Manazary, Miarinarivo, région Itasy, vient d'être dotée d'un nouveau bâtiment de 3 salles de classe,

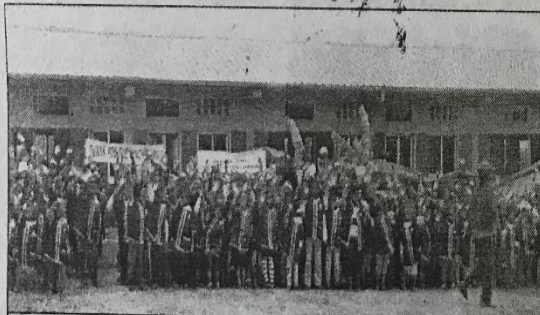

avec latrines à 3 compartiments, de kits scolaires, des manuels pédagogiques, ainsi que de jeux éducatifs pour le préscolaire.

MDF a de nouveau obtenu un financement de ses partenaires Adsum Foundation et une famille britannique, Lynch, pour ce projet, dont plus de 500 élèves en bénéficieront. Par ailleurs, le ministère de la culture et de la communication, en partenariat avec le député de Miarinarivo, Fetra Rakotondrasoa a saisi cette occasion pour remettre un lot de peintures destiné à ravalier la façade et à réhabiliter l'ancien bâtiment scolaire de l'EPP.

La nouvelle infrastructure a été inaugurée le 12 janvier

dernier par le ministre de la culture et de la communication Lalatiana Andriantongarivo Rakotondrazafy, assistée des autorités locales conduites par le député et le chef de district, ainsi que de la représentante de MDF.

Le village d'Ankonaka est localisé à 70km à l'Est de la capitale Antananarivo. Cependant, les quelque 25km de pistes qui le desservent sont quasiment impraticables notamment en saison des pluies, ce qui lui vaut son isolement et son état d'enclavement. **HR**

Education fondamentale

Des nouvelles infrastructures pour l'EPP de Manazary

Opérationnelle depuis le 12 janvier dernier, jour de son inauguration. L'école primaire publique (EPP) de Fiakarantsoa Manazary, à Miarinarivotasy, dispose désormais d'un nouveau bâtiment à 3 salles de classe. La construction de cette nouvelle infrastructure a été financée par la fondation ADSUM et sa partenaire, la famille Lynch, à hauteur de 123.613.845 ariary. Outre la construction du bâtiment, cette somme a permis d'équiper de mobiliers scolaires les 3 nouvelles salles de classe. Une partie a également été allouée à la construction d'un

bloc de latrines à 3 compartiments. D'un autre côté, les élèves de Fiakarantsoa ont été dotés de kits scolaires, jouets éducatifs pour le préscolaire et des manuels pédagogiques pour les autres classes, le tout évalué à 14.849.150 ariary.

Ces nouvelles infrastructures résolvent les mauvaises conditions dans lesquelles les élèves de l'EPP de Manazary ont dû faire face pendant plusieurs années. Ces écoliers de niveaux différents ont dû se partager une même salle de classe. Les 562 élèves ont été scolarisés dans un espace confiné, non éclairé et mal

aéré. Un environnement inapproprié et un cadre malsain qui peuvent expliquer la médiocrité des résultats scolaires, surtout à l'examen du CEPE. Mais c'est actuellement de l'histoire ancienne, grâce à la contribution de la Fondation irlandaise ADSUM. Celle-ci a déjà financé plus d'une soixantaine de projets de développement communautaire dans la Grande île depuis 2011, en tant que partenaire de longue date de l'ONG « Madagascar Development Fund ».

EPP Manazary La capacité d'accueil s'améliore

Un nouveau bâtiment composé de trois salles de classe vient d'être mis sur pied au profit de l'EPP Fiakarantsoa Manazary, district de Miarinarivo, pour pallier le manque d'infrastructure scolaire dans la localité. Toujours est-il que les anciennes salles de classe sont loin de répondre aux besoins des 562 élèves actuellement inscrits. Une situation qui contraint les élèves de niveaux différents de se partager une même salle de classe.

L'appui de la Fondation Adsum a permis de changer la donne. Ce fidèle partenaire de Madagascar Development Fund (MDF), qui a déjà financé plus d'une soixantaine de projets de développement communautaire à Madagascar depuis 2011 à ce jour, a fait don d'une somme de plus de 120 millions d'ariary en faveur de cet établissement. Un fonds qui a été affecté à la construction d'un nouveau bâtiment à trois salles de classe équipées de mobiliers scolaires. Grâce à une partie de ce financement, l'EPP Fiakarantsoa Manazary dispose désormais d'un bloc de latrines à trois compartiments. Les élèves sont également dotés de kits scolaires, de manuels pédagogiques et de jouets éducatifs... Le tout d'une valeur de plus de 14 millions d'ariary.

Fahranarison

Les élèves de l'EPP Fiakarantsoa Manazary étudient désormais dans de bonnes conditions.

Un bâtiment neuf et de l'eau courante à l'EPP Fandrakotra

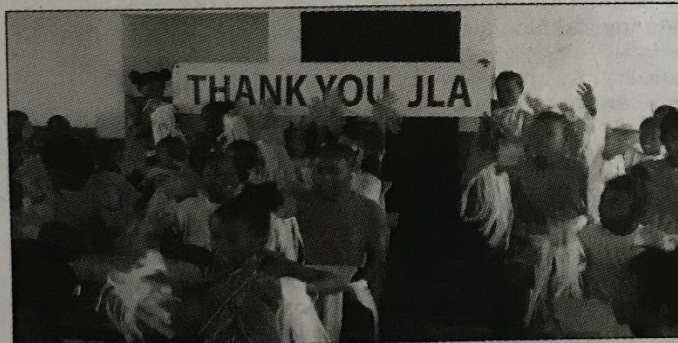

L'engagement « *velirano n°4* » qui consiste à une éducation de qualité pour tous, est concrétisé dans le village de Fandrakotra Fieferana.

L'ong Madagascar Development Fund (MDF) et ses partenaires JLA, DEIS Madagascar et la famille O'Hara d'Angleterre ont en effet doté l'EPP Fandrakotra,

de la commune rurale de Fieferana, district d'Antananarivo Avaradrano, d'un nouveau bâtiment de 4 salles de classe meublées, avec des manuels et jeux éducatifs, d'un bloc de latrines ainsi que d'une borne fontaine avec eau courante. L'ancien édifice ne peut plus contenir le nombre d'élèves en con-

stante augmentation. Les 262 élèves qui fréquentent l'école cette année sont ainsi les premiers bénéficiaires de ces infrastructures neuves, outre les générations futures, qui vont désormais évoluer dans un environnement de qualité aux normes de l'éducation nationale et favorable à leur réussite scolaire. Comme la santé va de pair avec l'éducation, les élèves sont initiés aux questions d'hygiène et de propreté par l'utilisation à bon escient de l'eau courante.

Le nouveau bâtiment scolaire ainsi que la borne fontaine ont été inaugurés le 2 mai par les autorités locales conduites par le député élu d'Antananarivo Avaradrano, le représentant du ministère de l'éducation nationale et le maire de la commune de Fieferana, en présence du DG de MDF Nicole Donaldson. **HR.**

Région Vakinankaratra De l'eau potable à Soafierenana Betafo

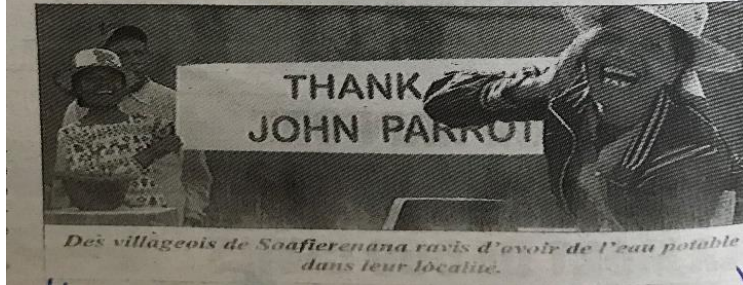

Les quelque 900 villageois de Soafierenana, commune rurale de Tritriva, district de Betafo en région Vakinankaratra ont désormais accès à l'eau potable. Auparavant, à défaut de source fiable, ils devaient parcourir de longs trajets à pied et pendant plusieurs heures sur des sentiers périlleux et à travers les rizières pour puiser de l'eau, tant pour la cuisson que pour leurs besoins quotidiens, à des points d'eau insalubre. Ce qui favorisait la prolifération des maladies d'origine hydrique et accentuait le taux de mortalité notamment infantile.

L'Ong Madagascar Development Fund (MDF) a obtenu un financement de ses partenaires britanniques John Parrott et Sue Melville pour l'installation d'un dispositif d'adduction d'eau pota-

ble, comprenant un réservoir de 20m³ et 10 bornes fontaines alimentées par près de 3000 mètres de tuyaux.

Villageois et autorités locales se sont accordés à admettre que l'eau, c'est la vie. La plupart des habitants de cette petite localité située à proximité du célèbre lac Tritriva exercent soit dans l'agriculture et l'élevage, soit dans le métier de guide touristique sur le site du lac. Désormais, ils peuvent se consacrer entièrement à leurs activités quotidiennes.

Ces nouveaux dispositifs ont été inaugurés le 8 mai par les autorités locales conduites par le directeur régional de l'eau, de l'hygiène et de l'assainissement du Vakinankaratra Lovasoa Randrianarivony et du maire de la commune de Tritriva, en présence de Nicole Donaldson, DG de MDF. HR

Un bâtiment neuf et de l'eau courante à l'EPP Miakotsorano

L'ONG Madagascar Development Fund (MDF) et sa partenaire, la fondation de la famille Tory d'Angleterre, ont doté l'EPP de Miakotsorano de la commune rurale d'Ambatomirahavavy, district d'Arivonimamo, d'un nouveau bâtiment de 3 salles de classe meublées, avec des

jeux éducatifs pour le préscolaire et d'un bloc de latrines à 3 compartiments.

Par la même occasion, les quelques milliers d'habitants de la localité de Miakotsorano ont désormais accès à l'eau potable grâce à l'installation, par MDF et la famille Tory d'un dispositif

d'eau courante comprenant un réservoir de plus de 20m³ et 12 bornes fontaines dont l'une est installée dans la cour de l'école EPP. Villageois, élèves, enseignants et parents d'élèves vont désormais évoluer dans un environnement de qualité, favorable au développement

de la localité. D'ailleurs, pour mieux s'approprier des biens, tous les villageois, sous la houlette du maire de la commune d'Ambatomirahavavy ont contribué aux travaux de construction en fournissant les matériaux locaux tels que sable, gravillons... et en participant avec enthousiasme à la main-d'œuvre.

Ces infrastructures, dont le nouveau bâtiment scolaire et les installations d'eau courante, ont été inaugurées le 17 mai 2023 par les autorités locales conduites par le député élu d'Arivonimamo connu sous le diminutif de Zoky Andry, et le maire d'Ambatomirahavavy, en présence du Directeur Général de MDF, Nicole Donaldson.

Développement rural De l'eau potable à Ankonabe Imerintsiatosika

Les quelques 700 villageois d'Ankonabe, district Arivonimamo, en région Itasy ont désormais accès à l'eau potable. Auparavant, à défaut de source fiable, ils devaient parcourir de longs trajets sur des sentiers périlleux pour puiser de l'eau, tant pour la cuisson que pour leurs besoins quotidiens, à des points d'eau insalubre. Ce qui favorisait la prolifération des maladies d'origine hydrique et accentuait le taux de mortalité notamment infantile.

L'ong Madagascar Development Fund (MDF) a obtenu un financement de ses partenaires britanniques Fran Pridham, Woodhall, Fooks et Friends of Hassocks Infant School pour l'installation d'un dispositif d'adduction d'eau potable,

comprenant un réservoir de 10m³ avec 6 bornes fontaines alimentées par 3000 mètres de tuyaux.

Villageois et autorités locales se sont accordés à admettre que l'eau, c'est la vie. Désormais, ils peuvent se consacrer entièrement à leurs activités agricoles sans devoir passer plusieurs heures à puiser de l'eau, loin du village, dans des sources insalubres.

Ces nouveaux dispositifs ont été inaugurés le 22 mai par les autorités locales conduites par le député élu d'Arivonimamo, Andry Rakotondravoavy et le directeur régional Itasy de l'eau, de l'hygiène et de l'assainissement, en présence de Nicole Donaldson, Directeur Général de MDF.

Fampandrosoana ny tontolo ambanivohitra

Rano fisotro madio ho an'Ankonabe Imerintsiatosika

Nahazo rano fisotro madio avy amin'ny fikambanana Madagascar Development Fund (MDF) ny mponina miisa 700 eo ho eo ao Ankonabe, kaominina Imerintsiatosika, distrikan'Arivonimamo, Faritra Itasy, ka ny mpiara-miombona antoka amin'ny MDF Fran Pridham, Woodhall, Fooks sy Friends of Hassocks Infant School, izay samy any Angletera, no namatsy vola ny fotodrafitrasa izay ahitana réservoir miaty 10m³ fanadiovana sy fitahirizan-drano madio sy fantsona mirefy 3km mitondra ny rano madio any amin'ny paompy fantsakana miisa 6 napetraka manerana ny tanàna. Naneho

fankasitrahana izao fotodrafitrasa izao ny mponina tamin'ny alalan'ireo solotena nandray ny fitenenana, toy ny filohan'ny komitin'ny Rano, ka nanamafisan'izy ireo ny lanjan'ny fiarahamiasa 3P na partenariat public-privé. Hihena,

hoy izy, ny tahan'ny mety hahazoana aretina avy amin'ny fampiasana ireo lavadrano tsy voa-dio, sy ny fotoana lany amin'ny dia an-tongotra mandeha mantsaka rano any an-tanimbary, ka afaka hifantoka bebe kokoa amin'ny asany

andavanandro amin'izay ny mponina, izay mive-lona rahateo amin'ny asa fambolena sy fiompiana.

Fahasoavana lehibe ho azy ireo moa no nandraisan'ny mponin'Ankonabe izao fotodrafitrasa rano madio avy amin'ny MDF izao, ka dia lanonana nanetriketrika no nandraisany izany.

Notokanana ny 22 Mey teo ny fotodrafitrasa, natrehan'ireo manampahefana eny an-toerana notarihan'ny solombavambahoakan'ny distrika Arivonimamo Andry Rakotondravoavy sy ny Talem-paritry ny rano ao Itasy ary ny Tale Jeneralin'ny MDF, Donaldson Nicole.

Santé publique en zone enclavée Un CSB II neuf à Miantsoarivo Arivonimamo II

A l'initiative du député élu d'Arivonimamo Rodin Rakotomanjato, l'ong Madagascar Development Fund (MDF) et sa partenaire la famille Sattin d'Angleterre qui a financé de nombreuses infrastructures communautaires à Madagascar, ont fait don d'un CSB2 moderne et équipé conformément aux normes du ministère de la Santé publique à près de

3000 habitants de 7 fokontany de la commune de Miantsoarivo-Sud, district d'Arivonimamo II, région Itasy qui ont dorénavant accès à des soins médicaux de qualité. L'implantation de ce CSB2 dans le fokontany de Maharidaza contribuera à réduire le taux de mortalité alarmant dû à l'absence de centre de santé à des kilomètres à la ronde.

En effet, depuis toujours, maladies et parturientes étaient transportés à dos d'homme, et à pied, sur des pistes périlleuses, jusqu'au centre de santé ou l'hôpital le plus proche situé à plus d'une vingtaine de kilomètres de ces villages. Il fallait souvent plusieurs jours de trajet si bien que des patients meurent en cours de route.

Outre les soins médicaux d'urgence et les traitements thérapeutiques élémentaires, les accouchements et tous les soins maternels et infantiles sont dispensés auprès du CSB II de Maharidaza, de même que les vaccinations de routine, circoncisions et petites chirurgies. La structure dispose d'une pharmacie. Une sage-femme d'Etat se chargera des patients, aux côtés de l'équipe médicale qui sera affectée par le ministère de la Santé publique.

L'infrastructure a été inaugurée le 2 juin par le député élu d'Arivonimamo Rodin Rakotomanjato et le Directeur régional Itasy de la santé publique ainsi que toutes les autorités locales, en présence du DG de MDF, Nicole Donaldson.

Fahasalamam-bahoaka

CSB2 vaovao ho an'ny kaominina Miantsoarivo Arivonimamo II

Manatona ny va-
hoaka hatrany, indrindra eny amin'ny tontolo am-banivohitra, ny Ministeran'ny Fahasalalam-bahoaka mba hisitrahany ny rehetra fitsaboana tsara kalitao.

Tobim-pahasalamana CSB2 vaovao manaraka ny fenitry ny fahasalamam-bahoaka, no natolotry ny fikambanana Madagascar Development Fund (MDF) sy ny mpiara-miombona antoka aminy, fianakaviana Sattin monina any Angletera, izay namatsy vola izany manontolo, ho an'ny kaominina Miantsoarivo distrikan'Arivonimamo II Faritra Itasy, ka ao amin'ny fokontany Maharidaza, iray amin'ireo fokontany 7 izay samy misitraka sy hampiasa io fotodrafitrasa io, no nanorenana azy io. Amin'ny maha CSB2 azy dia afaka misahana ny fitsaboana fototra rehetra izy, afa-tsy ny fandidiana. Ahitana efitra fitsaboana maro sy

birao, efa misy fanaka, kojakoja, fitaovam-pitsaboana sy fampiterahana, trano fidiovana anatin'ny sy ivelany azon'ny olona manankilima ampiaisana, efitra fampiterahana sy fampiantranoana ny reny vao terabao, fivarotampanafody, ary koa fitaovana fanaovam-baksiny sy fikarakarana ny zaza

sy ny reny. Afa-pahasahiranana ny mponina miisa 3000 eo ho eo amin'ireo fokontany 7 manodidina, raha voatery nilanja ny marary sy ny mpiteraka amina dia an-tongotra lavitra ezaka nandritra ny ora maro izy ireo nihazo ny tobim-pahasalamana akaiky indrindra. Hampihena tanteraka ny

taham-pahafatesana ny fisian'ity CSB2 vaovao ao an-toerana ity, izay afaka miasa avy hatrany sady efa vonona rahateo ny sage-femme hisahana izany.

Anisan'ny nisitraka fotodrafitrasa maro tamin'ny MDF ny distrikan'Arivonimamo, ka tamin'ity indray mitoraka ity, dia ny solombavambahoaka ao an-toerana Rodin Rafenomanjato no fototra sy tompomariky ny nahazoana izao CSB2 vaovao izao.

Notokanana ny Zoma 2 Jona teo ny fotodrafitrasa, ka nitarika ny manampahafana tamin'izany ny solombavambahoakan'Arivonimamo Rodin Rakotomanjato, ny Talem-paritry ny Fahasalalam-bahoaka ao Itasy, ny médecin-inspecteur, ny lehiben'ny distrikan'Arivonimamo ary ny ben'ny tanàna, notronin'ny Tale Jeneralin'ny MDF Donaldson Nicole.

Antananarivo Avaradrano

De l'eau potable à Miorikampoza Ankadinandriana

Les quelques 2000 villageois de Miorikampoza, commune rurale d'Ankadinandriana, district Antananarivo Avaradrano, région Analamanga ont désormais accès à l'eau potable. Auparavant, à défaut de source fiable, ils devaient parcourir de longs trajets sur des sentiers périlleux, à travers les rizières, pour puiser de l'eau, tant pour la cuisson que pour

leurs besoins quotidiens, à des points d'eau insalubre. Ce qui favorisait la prolifération des maladies d'origine hydrique et accentuait le taux de mortalité notamment infantile.

L'Ong Madagascar Development Fund (MDF) a obtenu un financement de ses partenaires Vanilla Corporation of America, le couple Woodhall, Hassocks

Infant School et Dunstable Rotary Club, pour l'installation de nouveaux dispositifs d'adduction d'eau potable comprenant un réservoir de 20m³ avec 12 bornes fontaines alimentées par plus de 3000 mètres de tuyaux. Un financement additif de Dunstable Rotary Club et Courts Field School d'Angleterre a également permis d'entreprendre une extension de ce réseau de distribution d'eau potable à d'autres villages riverains.

Ces nouveaux dispositifs ont été inaugurés le 6 juin 2023 par les autorités locales conduites par l'assistant du député du parti TIM élu d'Antananarivo Avaradrano et le maire d'Ankadinandriana Gérard Malalanandrandraina, en présence de Nicole Donaldson, Directeur général de MDF.
